

Our tents are currently being purchased for wide range of uses, from personal, corporate, religious & small scale business hire ventures. We understand the investment that our customers are making in purchasing our products & we are sure to source the best materials from the best suppliers to make our customers investments worth while.

Product Photos

Product Info

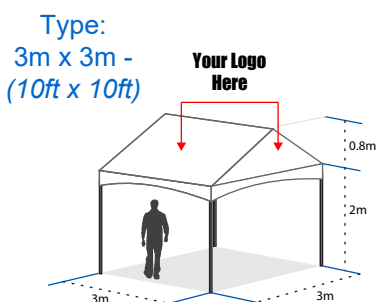

Our steel frame tent canopy covers are manufactured using a **5 year warranty, fire rated, highly UV resistant 610gsm heavy duty PVC tarpaulin**, that is sure to withstand the harsh pacific climate.

- ▶ All tarpaulin joints are heat welded with a 25mm seal.
- ▶ Only UV resistant threads are used for stitching with UV resistant polyester webbing for reinforcing.
- ▶ Eyelets are machine punched & fastened.
- ▶ Our poles are fabricated using A-grade galvanized steel pipes that are fully welded & painted by our highly skilled fabrication team.
- ▶ All products sold & manufactured by Tents & Awnings Pte Ltd come with a 1- year manufactures warranty.
