## Sail Shades

Our Sail Shades are designed to withstand the elements. Their heat resistant capabilities make them a perfect usage for patios and pools.

When choosing outdoor shade sails, you should consider the aesthetic form because every home or commercial setup has overriding theme into which the sails need to blend.

The aesthetics include colour & shape on the sail fabric.

## Material

*Shade cloth* material is the specified material used for a perfect sail shade structure.

The durability of this material includes:

- *Extreme Strength*
- *320 GSM*
- *Dimensional Stability*
- *Excellent UVR Blockout ( Up to 95.8% )*

The material used is flexible and hooked on several anchor points.

Vunabaka Resort - Malolo Island

Outdoor blinds provide **shade and privacy**, which means the interior of your home will stay **cooler** during the hot weather months.

## Gearbox System Blinds

Gearbox Blinds can be used for windows or as a supplemental coverage option for balconies or verandas.

## Motorized System Blinds

Motorized Blinds can be operated from a single control or can be operated individually by simply pressing a button.

## Material

- UV Treated Acrylic Canvas
- 5 to 1% Mesh Fabric
- HD PVC Tarpaulin

Perfectly stitched using UV Polyester Threads.

Executive Residence

Marriott Resort - Momi Bay

An impeccable awning offers you invaluable protection from direct sunlight exposure for people in your household getting more use of space whether you're hosting barbecues, garden parties or just relaxing.

## Retractable Awnings

Retractable awnings are more versatile and can be adjusted to different slopes to suit different needs and weather conditions which is an advantage that you simply won't find on any of its fixed counterparts.

## Material

The cover has a optional material collection that will suit your awning structure. This includes:

**Acrylic Canvas:** Waterproof material that protects the fabric, creating a barrier which reinforces the water repellence and delays the dirt fidelity.

**Mesh Netting:** Sun Shade material, providing outdoor comfort and indoor climate control.

## Tensile Membrane Structure

Tensile membrane structures are an efficient, aesthetically pleasing and elegant method of covering large spaces. We are the only company in Fiji that can design, engineer, fabricate and install your tensile membrane structure.

## Material

Our product will meet the highest standards for UV and fungicide resistance together with long term durability.

Our fabric features:

- *thermal comfort inside the structure*
- *allows different sunlight transmission*
- *resists fungus attacks*
- *Dirt repellent & easy to clean*

Outdoor umbrella is the most versatile and effective outdoor shade solution available. Whether you care more about style or function, outdoor umbrellas have you covered.

A free standing umbrella offers an oasis away from the home positioned in front of a pool or a cosy spot in the yard perfect for weekend gatherings, family events or outdoor dining. This product is also ideal for resorts and hotels.

The umbrella features:

- Waterproof PVC fabric
- UV Protection

- Easy opening & closing
- 5 years warranty

# EXECUTIVE CLEAR SPAN 7

## Executive Clear Span

Our Executive Clear Span Tent covers large areas for any occasion. The unique structural formation of the Clear Span makes all the inside space usable with no internal columns or supports to interfere with your interior plans.

### Our Clear Span:

- Provides superior height and clearance compared to traditional metal or wooden buildings
- Maintains shape, does not shrink, swell, split, warp, rust or rot away
- Steel frames resist corrosion even in the harshest conditions
- Built Option: Permanent or Temporary

### Motorized Pergola

A free-standing structure which has remote controlled roof louvres with no complicated connections between the house and the pergola which looks fantastic as it opens to greet the sky and closes to provide shade, a sight to see.

### Our Motorized Pergola:

- Remote controlled
- Durable
- Convenient
- Temperature Reduction

Supplying the best tents throughout the local & pacific region, Tents & Awnings Limited will also provide everything needed for Sail Shades, Awnings, Outdoor Blinds & Tensile Membrane Structures.

Our innovative products are all custom made to your requirements and suited for residential or commercial applications.
